Full stack capable web developer, trained with a JavaScript focus. Soon to graduate from a 2U powered boot camp. Known for being very thoughtful, practical, and meticulous. Passionate about solving problems and excited to stretch the limits of my abilities while contributing my efforts in the service of an excellent future employer. While not presently able to offer the high level of expertise possessed by a more experienced developer, what I can offer is positivity, dedication, and integrity. I truly see a challenge as an opportunity to grow. I'm not under any illusion that obstacles I might face in the future will be easy; however, having faced tough situations in the past has pushed me to a place where I am now more comfortable working through them. I'm confident that I can be an asset to your team! **Skills:** HTML, CSS, JavaScript, Node.JS, Express.JS, React.JS, SQL, NoSQL, Git

Projects

Trippin Worldwide | Web Development Boot Camp

Front End Design and Development, Error Handling and Bug Fixes, Mobile Responsiveness

- A CMS style travel blog where users share and view each other's travel experiences.
- Data managed with MySQL and Sequelize. My main role was using Handlebars.js, HTML, JavaScript, and CSS to create custom views to interact with the user.

Explore National Parks | Web Development Boot Camp

Front End Design and Development, Error Handling and Bug Fixes, Mobile Responsiveness

- A site where a user can access images and information about every US National Park.
- Front end connected to the National Parks Rest API. My main role was using HTML and custom CSS, along with the Bulma library, to create a mobile responsive UI.

Professional Experience

Fort Scott Munitions

Feb 2016 - Sep 2021 Head Lead of Production Fort Scott, KS

- Greatly improved new manufacturing process in efficiency, quality, and quantity of production
- Effectively lead 3 shifts (15 total emp.) - minimal drama, high manager and employee satisfaction – lead with positive attitude which spread throughout the department
- Exceptional communication - ability to learn on the job - optimal trainer of new hires

Education

University of Kansas - 6-month boot camp for full stack web development

Fort Scott Community College - Associates Degree of Nursing

Recreation

I enjoy time with family, hiking, pickleball, Marvel comics, music, KC Royals, and Jayhawks basketball. I have run 11 - 26.2-mile marathons, including Pike's Peak Ultramarathon twice.
